## REPORT OF THE HIGHWAY AGENT

---

### MAINTENANCE:

We came out very good on our appropriation this year. The monies being spent on necessary road repairs consisting of patching, gravel, culverts, catch basins and brush cutting.

There are several places I had planned to repair or finish repairing, budget allowing, but I did not feel I should purposely overrun on my appropriation repairing places that were not of a hazardous condition. My budget permitting this coming year I would like to continue work on the following: Sidewalks in the vicinity of Epping Street, School Street, Post Office and V.F.W., by the use of more catch basins.

### PROJECTS:

Harriman Road and Green Road were our initial projects, they were finished with a twenty-foot road mix surface with at least a two-foot shoulder on each side, I feel they were satisfactory. We had a balance left on the Harriman Road and an unexpected one on the Green Road. With the Green Road completed as far as was planned, we have proceeded with construction on Onway Lake Hill Road using Town Road Aid Funds. This section is seven-tenths of a mile and heavily traveled during summer months by both Resident and Non-Taxpayers, and is long overdue for gravel and surface.

### TARRING:

This budget was expended on the following roads or sections of: Critchett Road, Onway Lake Road, Plains Road, Batchelder Road, Green Road, Lane Road, Harriman Road, Governor's Lake Road, Fordway Road, Old Manchester Road, Ham Road and Sun Hill Drive.

I want to extend my thanks and appreciation to the men employed by this department, the Selectmen, Town Officers and citizens of Raymond for their co-operation given me.

Respectfully Submitted,

Lyman R. Hammond, Jr.

Road Agent

## REPORT OF LIBRARY TRUSTEES

---

Your Library Trustees believe that the past year has brought decided improvement to the Dudley-Tucker Library and believe that continued gains can reasonably be expected.

On the physical side the refinishing of woodwork, furniture and floors, which was financed from the Batty-Uddleston gift, adds greatly to the appearance of the interior. This should be still further enhanced by the completion of the new lighting on which progress has been delayed.

A weeding out of worn-out antiquated and unused books has improved appearance and provided space for new books. The sale of these discards has helped slightly in the purchase of replacements.

A modern Encyclopedia Britannica replaces a forty year old predecessor.

Many new books have been purchased — see Librarian's report, and additional purchases are in the offing. These acquisitions are spread over the year to match available funds and the publishing and selection of desirable books. Suggestions for good books are welcomed.

Early in the year your Trustees affiliated the Dudley-Tucker Library with the Statewide Library Development Program. We list a few of the benefits already resulting and expect further advantages to come:

1. By buying books through the State we receive a 36 to 38 percent discount.
2. \$125.00 of Federal funds became available through this channel. This nearly halved the cost of the Encyclopedia.
3. The Bookmobile, which regularly gives us new books on loan, is a part of this program although this service was not dependent on our joining the program.
4. Frequent "bookmeetings" are held at which the Librarian and Trustees can examine new books,

listen to lectures on them, and make selections. Most of our book purchases have come about this way.

5. Regular meetings of Library Trustees of South-eastern New Hampshire with State Library advisors in attendance constantly improve the background of your Trustees and should result in improved Library Service. Three such meetings have been attended plus two sub-committee meetings.
6. The assistance of State Library advisors has been made available generously. For example, Mrs. Rachel Sanborn, State Library Representative has spent five days with us. She has been most helpful.

Your Trustees consider themselves fortunate to have had the continued services of Mrs. Alice Wason as Librarian. Her experience and beyond that her spirit of helpfulness are real assets to the library.

With the above background, your Trustees believe that continued improvement in the Library and its service can be promised.

Respectfully submitted,

Iber Holmes

**FIRE DEPARTMENT REPORT**

---

A brief resume of the Fire Department activities for 1965:

- 54 Still Alarms
- 30 Bell Alarms
- 15 Gave Mutual Aid
- 4 Received Mutual Aid

\$342,700.00 Estimated Value of Buildings involved

\$159,700.00 Estimated Value of Contents involved —

\$ 51,950.00 Estimated Losses

The addition to the building was completed and the building now houses the Police Department, the Ambulance Corps and the Fire Department.

We also added a much needed new tank truck.

In closing I want to thank several people for a very successful year. First the GIRLS who operate the Red Net Work alarm system, and the Police Department for their quick response to alarms and directing traffic at dangerous intersections when our department was responding to fires.

To Mr. Rice of the Manchester Sand and Gravel Co. for the fill that he donated for the new building, to Mr. Wyman and Mr. Welch for the trucks and tractors donated during the construction, and to the Citizens of Raymond for being careful with fire and keeping our fire losses at a low figure.

Repectfully submitted,

P. A. Fox

**RAYMOND POLICE DEPARTMENT**

---

It is my privilege to prepare this report of the activities of the Raymond Police Department for the year 1965.

During the past year most of the functions of this Department were on a par with the past four years.

Motor Vehicle accidents showed a decrease of about 10% with only one fatal within the town limits. Considering the increased number of motor vehicles and operators this is a very gratifying factor.

The policy of almost constant surveillance during the night hours has again proven to be the answer to damage and loss caused by persons who are engaged in breaking and entering during the night and early morning hours. This policy must continue if the loss rate caused by these persons is to be kept low.

In reference to the school activities, it is felt by this department, that with the increased value of the school plant that more time spent covering school functions, and surveillance during the inactive hours is money well spent.

This year with the completion of the new facilities built at the Fire Station for this department, will undoubtedly increase the service of this department to the citizens of the town.

I take this opportunity again to thank Dep. Chief Robert Elliott, Robert Richard, John Longazel and all the other Officers of this Department, the Selectmen and the citizens of the town for their contribution of time and equipment to make this department function smoothly.

**REPORT OF THE SUPERINTENDENT OF SCHOOLS**

---

**Enrollments:**

In 1961-62 Raymond had an enrollment of 477, and this year has 604, a gain of 127 in a 5-year period. Next year promises around 650. We have some conflicting forces, such as the phasing out to some extent of Pease Air Base against a report from Arthur D. Little, Inc. which predicts a rapid gain in New Hampshire population. It would seem that this section of the state will continue to gain, and that Raymond will have its share.

The opening of the Ruth T. Houghton wing has given us some fine facilities, including a new kitchen and cafeteria, a new library, and eight classrooms. The old cafeteria is being converted into a band room and, although not perfect, will be most acceptable, besides freeing the gym for other activities. Having had some experience with new buildings, let me state that this wing was built at a very reasonable per square foot cost and has some quality features. I am very pleased.

The hiring of teachers is fast becoming a full year's job. As a matter of fact, the past year has proven just that. This is a time-consuming, frustrating job about which it is impossible to tell anyone. This must be experienced to be believed. We try to get as many people involved in this process as possible, with the result that we hired the twelfth, and last, teacher for Raymond in August. We hope we will need fewer this coming year, and that salary increments will be enough to hold our present staff. At this moment, the average current salary in Raymond is almost \$400 less than last year's average for the state, which actually means better than a \$600 difference this year. Of course, state averages are deceiving in that they are bolstered by relatively high salaries of those at the top of city schedules, but they are surely indicative of trends. Minimum salaries of \$4800-\$5000 are

being more than casually mentioned in New Hampshire, particularly in the southeastern corner, of which we are a part. A competitive beginning salary is a must in hiring beginning teachers.

### **Federal Aid:**

A brief summary of the newer aspects of Federal aid may be in order. This attempt will be inadequate at best, but may help to understand the basic ideas involved.

Title I gives most districts funds to improve educational opportunities for the "educationally deprived" pupil. The money available depends on economically deprived youngsters as determined from the 1960 census. In theory, there is a great variety of possible projects; in practice, only time will tell!

Title II allocates money to each supervisory union for library books and resources, and audio-visual supplies. This union has \$6500 for these purposes. All of these materials must be deposited in a central place and circulated among school districts as requested, much as a single book may be, but with longer loan periods permissible.

Title III is designed to encourage new ideas in education, to allow for experimental projects, and to encompass large areas. Some of these funds this year will be used for planning grants. Word has just been received that such a grant has been made to the Derry Co-operative School District to plan for a Psychological Service Center for Pre-School and Primary Grade Children for Rockingham County. Assistant Superintendents Ira Stickney of the Derry Union and Roland Schoepf of our office deserve credit for doing the lion's share of the work in preparing the application for this grant. We hope to see this planning grant fully implemented, and such a center established.

The funds under these three titles are "free and clear", and not matched by local funds.

Besides the above, Headstart Projects are still possible under the Office of Economic Opportunity. The planning for these is now at the county level. At the moment, we do not know whether or not we will have any pre-school projects this summer.

There are still funds under the National Defense Education Act for science, mathematics, language, and guidance. These funds must be matched by the local districts.

In the trials and tribulations of working with Federal funds, we are apt to forget that, under PL 89-10, they must be used in addition to regular budgetary funds to do things which would not be otherwise done, and to increase the learning opportunities of children. As in all things human, not all plans will produce results, but who is to say that the effort should not be made? As can be seen from the brief description above, the primary purpose of Federal Aid is to make possible a variety of projects and approaches to increase the educational opportunities of all children, with special projects designed for the educationally deprived. In our anxieties of various kinds, we must not overlook the pupils and what may be done to improve their learning opportunities.

We have spent much time and effort in studying these titles, attending meetings, preparing projects. Paper work varies from title to title, with Title III requiring 30 copies of the application! After all is said and done, we are in education to do the best we can for our pupils; this we have done, and will continue to do.

The support of schools in Raymond has been excellent. We believe we have made gains in both tangible and intangible items, and can only hope for your continued support for the good of our pupils.

Respectfully submitted,

C. MAURICE GRAY

Superintendent of Schools

**COOPERATIVE STUDY REPORT****January 29, 1966**

---

The Cooperative School Study Boards of Candia, Epping and Raymond, after many months of study, are approaching their final report. During the past months we have found many more reasons why we should work together in a Cooperative School District than reasons to go our separate ways.

Candia, Epping and Raymond are tied together by Highway 101, the busiest East-West road in the state. They are in an area of growth and opportunity and, as the chart below indicates, have very much in common.

The school population in each town is nearly the same. The school tax per \$1,000 based on equalized valuation is very close. The net worth in present schools is also comparable. In fact, the three towns are so nearly equal in this study that the Cooperative Study Group has voted that a future Cooperative School Board would have three members from each town to form a nine member School Board. Each town would then have an equal voice in a new Cooperative School District. In method of apportionment of school costs the study group voted to base it on one-half Equalized Valuation and one-half of Average Daily Membership.

The study group has sifted and evaluated information of all kinds and types furnished by local, state, and out-of-state sources. The one large over-riding issue, in studying all this data, has been the common desire of this board, and the people they represent, to make available to the children of the region an educational system that will develop the child academically, physically, emotionally and socially. This system to be modern and efficient and still to fit within the present tax structure of New Hampshire.

The voters of Candia, Epping and Raymond will be asked at Special School Meetings late in April or May, after hearing the plans of this study group, to vote on forming a Cooperative School District. This school district to pool the resources of all three towns into a joint venture in better schools.
